Professional Summary

Frontend Developer and Computer Science undergraduate skilled in **React.js, Next.js, TypeScript, and Node.js**. Experienced in developing scalable, production-ready web applications with REST API integration, JWT and OAuth 2.0 authentication, real-time communication using WebSockets and Socket.IO, and AI/LLM API integration (Gemini API, OpenAI API). Seeking a software engineering role to build impactful, user-facing products.

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, C++

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, React Hooks, Context API, Component Architecture, Responsive Design, Cross-browser Compatibility

Backend Development: Node.js, Express.js, RESTful API Development and Integration, MongoDB, PostgreSQL, Mongoose ODM

Authentication & Security: JWT (JSON Web Tokens), OAuth 2.0, Session Management

Real-Time & AI APIs: WebSockets, Socket.IO, Gemini API, OpenAI API

Developer Tools: Git, GitHub, VS Code, Vercel, Postman, npm, WordPress CMS, Google Analytics, Google Search Console, Notion

Core Concepts: Data Structures & Algorithms, OOP, Agile Methodology, Scrum, CI/CD, SEO, Web Performance Optimization

Work Experience

Watch Over India (WOI) — Digital Operations & SEO Intern

Feb 2026 – Jun 2026

Noida, Uttar Pradesh, India (On-site)

- Managed end-to-end WordPress CMS workflows (publishing, formatting, SEO metadata optimization, scheduling) improving content throughput and consistency.
- Monitored website traffic and engagement KPIs via Google Analytics and Google Search Console; applied on-page SEO strategies including meta tags, keyword optimization, and content structuring to improve organic search visibility.
- Coordinated digital production workflows using Canva, Meta Business Suite, and Notion, reducing content turnaround time and improving team collaboration.

Projects

QuizLab – AI-Powered Quiz Platform | Live Demo | GitHub

React.js, Tailwind CSS, Gemini API, Node.js

- Developed an AI-powered quiz platform covering 15+ subjects with dynamic difficulty-based question generation using Gemini API.
- Built reusable React.js component library with Tailwind CSS for fully responsive UI; designed user dashboards for quiz creation, participant tracking, and performance analytics.

MockPrep – AI Interview Preparation Platform | Live Demo | GitHub

React.js, Node.js, Express.js, MongoDB, Gemini API, Google OAuth 2.0

- Built a full-stack AI interview platform for technical, HR, and behavioral mock interviews with real-time Gemini API question generation and AI-powered post-session performance feedback.
- Implemented JWT and Google OAuth 2.0 authentication; designed scalable RESTful backend with Node.js, Express.js, and MongoDB with structured data modeling.

Pixel Party – Real-Time Multiplayer Draw and Guess Game | Live Demo | GitHub

JavaScript, Tailwind CSS, Socket.IO, WebSockets, Node.js

- Engineered a low-latency real-time multiplayer game using WebSockets and Socket.IO supporting concurrent game rooms with synchronized game state across connected clients.
- Built HTML5 Canvas drawing tools with real-time stroke broadcasting, round timers, and automated game-loop logic for seamless competitive multiplayer sessions.

Education

JECRC University, Jaipur

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Aug 2022 – Jul 2026

CGPA: 7.97 / 10.0

Certifications and Achievements

- Google Cloud Computing Foundations Certificate
- Winner – Esports Tournament, Innov8 Tech Fest 2023, JECRC University
